## Coot Hunting off to Fine Start in Lake Area Oct. 1

Coot hunting season opened Tuesday with an estimated 4,000 hunters blasting away in a veritable din at Grass lake and surrounding territory. It was a good opening day, according to resort owners who had all of their boats in use.

None jumped the opening siren, darkness having its effect on that score.

With very little or no wind, the coots, also known as mud hens, remained back in the pockets and bays among the lily pads and those who fired from the blinds got their limit while those who were out in boats had less luck. It was estimated that about 30 percent of the hunters got their limit.

After the coots were scared away from their feeding ground to the open water region, those in boats got their share.

Although one or two persons may have received some stray shot, the day was comparatively free from accidents. A new Gar Wood boat in use by Game wardens, Bob Sparks, Russ Carleton and Tony Maggio struck a submerged object and a big hole was torn in it. The boat was towed in before it sank and the men escaped a wetting by standing on the seats. Livingston E. Osborne, head of the department of conservation, was one of those in the boat. The boat was the first of the new Gar Wood craft on the lake.

The hunters were not all Cook county visitors. Many local people who are said to like the mud hen better than ducks, are hunting them and canning them to beat the meat shortage.

The coot hunting season will last until Oct. 13 when there will be a closed season until Oct. 26. Then for 45 days ducks and mud hens both may be shot.

## Robert Behler Hurt in Auto Accident at DeKalb Saturday Night

Robert Behler, 24, a graduate of the Antioch Township High school, was badly hurt Saturday night when his automobile left the highway near DeKalb and crashed into two telephone poles.

Behler, a resident of Woodstock, is a student at DeKalb Teachers college. He was on his way home Saturday night and it is believed he fell asleep at the wheel. One pole was broken off by the impact and the car lodged against the second. The car was wrecked.

The young man was taken to the Woodstock hospital where it was said that his worst injury was a bad cut across the right side of his face from the corner of the mouth upward. Glass was shattered into his eyes and he had lacerations over the head. He had no broken bones, however.

Behler made his home in Antioch from 1936 to 1940 with the Homer Gaston family. He served in World War II as a tail gunner on a bomber.

## Daniel Joseph Dupre Formerly of Antioch Dies in Wisconsin

Daniel Joseph Dupre, 32, cousin of John Dupre, of Antioch, died Sunday at the Wisconsin General hospital in Madison, Wis. He had been ill with diabetes.

The funeral service was held at 9:30 a. m. Wednesday at his home, Delavan, Wis.

The son of Mr. and Mrs. M. S. Dupre, formerly of Antioch, he was born in this village. He is survived by his wife, Lucille, a son, Anthony and a daughter, Dion. Two sisters also are living.

Mr. Dupre was well known in Antioch and visited here often.

## Mildred Techert Gives Radio Talk in New York

Mildred Techert, daughter of Mr. and Mrs. Fred Techert attended the National Biennial nursing convention at New York as a delegate from Illinois.

Tuesday evening of last week Miss Techert gave a talk at a dinner held in the Colonial house on the work carried out by the Chicago Maternity center at which she holds a position. The talk was broadcast over the Atlantic City, N. J. radio station.

## Send Them the News by The Antioch News

Of course you will write often to your son or daughter away at school but the best way to keep them posted on news of Antioch and vicinity is to mail them the Antioch News every week.

We will save you the trouble by mailing them a copy weekly during the term for \$1.50. That way they will miss none of the home news that still is important in their lives.

## H. S. Transportation Plan to Await More Complete Poll Returns

### No Action Taken by Board at Meeting Wednesday Evening

No action on the plan to provide free transportation for high school students was taken at a meeting of the board Wednesday evening. T. R. Birkhead, principal of the school and spokesman for the board of education said today that "due to the small response of the school patrons to the recent poll conducted by the board of education in connection with having school-provided transportation, the board feels that no action should be taken until a more representative reaction is received."

The poll, which consisted of 200 letters sent to parents of school students, included a return card on which patrons could mark their preference in the matter. To date no more than forty of the cards have been returned. Of the forty returned about thirty-two were marked in favor of the plan and five were against all the provisions included.

Birkhead mentioned the possibility of the calling of a meeting of patrons of the school and taxpayers some time in the future, in order to be able to discuss the plan more thoroughly.

The proposed service would carry approximately 170 students daily and would entail an outlay of \$20,400 during the first year, with the cost dropping to about \$6,800 for the second and succeeding years. Of this amount the state would reimburse the school district to the amount of \$20 per student per year, making the cost, after the first investment, only about \$3400 annually.

## Large Crowd Attends Get-Acquainted Party at Antioch High School

Ninety-six persons attended the "Get-together party at the Antioch Township High school Tuesday evening when parents of the students became acquainted with the teaching staff.

The new teachers were introduced by Principal T. R. Birkhead. A large number of men were present and they and their wives had opportunity to turn back to their own school days in the classes that were formed during the social hour. A spelling bee was a part of the classroom "work" and when the group paired for refreshments they matched states and their capitals. As an ice-breaker the game of musical chairs was played and handshaking replaced the plan of removing the chair.

Mr. and Mrs. Carl Abbs played several numbers on the piano accordion and guitar.

Mrs. Elmer Hunter, chairman of the social committee announced that a potluck supper is scheduled for the first week in January and it will be open house at the teachers' rooms.

## MariAnne's to Stage Fashion Show for Antioch Woman's Club

The Antioch Woman's club will hold its first meeting of the season at the Colony House, Rock Lake at 12:30 p. m. Monday at a luncheon followed by a fashion show.

Members will be privileged to bring guests to the meeting, but reservations must be made with either Mrs. A. H. Kaufmann or Mrs. Einar Petersen.

MariAnne's of Antioch and Libertyville will present the style show, showing the new fall fashions. New cottons, fresh bright wools in flashy fall colors, suits for street and dress, cloth coats, hats, bags, belt, and gloves to match will be shown.

In the second section of the style show, fur coats, from Daniel Senne, Chicago, will include mouton lamb, mink, Persian lamb in latest fashions.

## Barrington Here in Conference Game Tomorrow

### Sequoits Outplay But Lose to Zion-Benton by 14-13 Score

In the first of the conference games this season Antioch High will meet Barrington High on the local gridiron at 8 p. m. Friday.

For the first time this year the Sequoits will be meeting a team of their own weight and Coach Maurice Kruzan believes his boys will win this game.

Although Antioch outplayed Zion-Benton statistically, they lost to the Zee-Bees at Zion last Friday night 13 to 14. Had there not been a holding penalty just as Antioch scored a touchdown in the first quarter, the victory would have come to the Sequoits.

Failure to kick goal after one of the touchdowns prevented a tie score.

Both teams made 10 first downs, but the style of play was quite different. Antioch, outwheeled, took to the air and completed six of the 19 forward passes for a total of 114 yards, as compared to Zion's three attempts for a two-yard gain.

On the other hand the Zee-Bees gained 190 yards from line of scrimmage as compared to Antioch's 143 yards. The total yardage was in favor of the Sequoits.

The Antioch boys fumbled five times, but recovered four of them and three of their opponents four fumbles. They lost 50 yards on penalties, however, as compared to 15 for the Zion boys.

## Birkhead to Talk at Lake Villa Big Brother Day Meet

Principal T. R. Birkhead of the Antioch Township High school will be one of the speakers at the Big Brother Day dinner of Lake Villa Community Men's club Tuesday, taking for his subject "Vocational Guidance."

Five senior boys of the high school will be privileged to take part in the day's events, accompanying professional and business men in their day's occupation just as are 30 Lake Villa boys and girls ranging ages from 13 to 17 years.

Five men, specialists in their field in Waukegan and North Chicago have asked to participate with the 30 Lake Villa men in the program of taking one or two boys or girls with them in their rounds of work, according to Dr. Calvin P. Midgley, chairman.

The club will have them and the students as guests at dinner in the evening. They will tell their experiences and it is expected that quite a few unusual incidents and anecdotes will be recited.

Adam Dick is in charge of the program that will follow the dinner. Dr. Ray Moore, principal of the Lake Forest High school, will be the principal speaker. Miss Betty Hussey will direct three one act plays given by students. There will be songs and instrumental music by students.

## Mrs. Mary Sheehan, 70, Lifelong Resident of Antioch Township, Dies

Mrs. Mary A. Sheehan, aged 70, died Friday, Sept. 27, at 2:15 at her home 781 N. Main St., following a long illness.

The funeral service was at 9 a. m. Monday at the home and at 9:30 at St. Peter's church. Burial was in Ascension cemetery.

Mrs. Sheehan was born Feb. 8, 1876, in Antioch township and lived here all her life. She was a daughter of the late Miles and Ann Carney. She is survived by the husband, Herbert Sheehan, a son, Fred M. Sheehan, and a daughter, Mrs. Thomas Tobin, both of Chicago. Also surviving are the sister, Mrs. Elizabeth Dunn, and a brother, Peter Carney, of Waukegan. She has six grandchildren. A daughter, Mrs. Harold Kelly preceded her in death.

Mr. and Mrs. F. J. Handley, of North Main street, returned home last week from a month's visit with their daughter, Mrs. Harry Kilstrom, and family at Hamburg, N. Y.

## Village Board to Meet Wed. Night Through Week's Postponement

### Problem of Extra Policeman to Be Presented by Lions Club

The Village board will meet Wednesday evening in a session that was postponed from last Tuesday because of a trip of the trustees and president to the Municipal League convention at Springfield. Tuesday night is the regular meeting night of the firemen and this accounts for the meeting being held on Wednesday.

It is expected that members of the Lions club and other townspeople will be present to bring to the attention of the board the need of another policeman. The board wrestled with the problem last year and couldn't find anyone with a car to take the job at a price the city could afford to pay, according to members of the board.

Whether a solution to the problem is worked out remains to be seen. Village President Geo. B. Bartlett said today that while extra police protection was undoubtedly a necessity, that some means of obtaining the extra funds would have to be worked out, and mentioned the licensing of certain businesses as a possible method of raising the needed money.

## Legion Auxiliary Plans Membership Campaign With Goal Set at 20

During the next few weeks Antioch Unit of the American Legion Auxiliary is conducting an intensive membership campaign, according to Mrs. Rose Kennedy, president. Last year the unit had 125 members and has set a goal of 200 members for this year.

All mothers, wives, sisters and daughters of World War II veterans who are members of the American Legion are especially invited to become members of the Auxiliary. At the Oct. 25th meeting all new members will be especially entertained, according to Mrs. Deborah Van Paten, membership chairman.

While the chief program of the American Legion Auxiliary is service to the disabled men of World Wars I and II and their families, the Auxiliary also includes among its interests Americanism, National Defense, Community Service, Pan Americanism, Junior Activities and Music. The broad program of the Auxiliary offers a special interest to every woman and with the large increase in Legion membership it is expected that the over 700 units in Illinois will reach a membership of 75,000 this year.

## Shortening Is Short—But Not at Our Bakery

Although the shortage of lard and shortening is threatening to close some of the bakeries at Waukegan, the Pedersen bakery is without such difficulty, according to Mrs. Alfred Pedersen, wife of the proprietor.

Although prevented for some time in baking some kinds of cakes because of shortages in ingredients, the local bakery has been able to supply the community with rolls, doughnuts, and the like.

## Grass L. Bridge to Be Built in 1947 Says State

### Antioch Officials Told Plan Will Proceed if OPA Will Permit

Assurance that the Grass lake bridge connecting the Chain O' Lakes park with Grass lake road leading to Rtes. 59 and 173 will be built next summer was given Antioch officials at a meeting of Lake county citizens with officials and engineers of the state department of public works in Springfield Tuesday afternoon.

President George B. Bartlett spoke for the village in assuring the state officials of the need of the short cut highway over Grass lake and approved of the plan, though distant in prospect, of making Rte 173 a connecting boulevard between the park and the Dunes park on Lake Michigan south of Zion.

The bridge will be started just as soon as the federal government permits, it was said. Money already has been appropriated, and all that is needed is permission from the Civilian Production administration to start construction. This permit was held up this year, but the state is hopeful that it will not be next year.

To improve Sheridan Road

There also has been the problem of shortage of materials and high costs.

The state engineers said that Sheridan rd., from Waukegan to the state line would be straightened, widened, and paved with blacktop. This was the approval of the delegation from Wadsworth, Winthrop Harbor and Buckley Hills in Waukegan who had asked for the meeting with the engineers.

No assurance was given on the 22nd street grade separation at North Chicago.

The park commission has asked for bids in the construction of beach houses at the State Lake park known as Dunes park.

The meeting Tuesday was arranged by Sen. Ray Paddock and Reps. Nick Keller and Harold Kelsey and was attended by John Spellman, Republican central committee chairman.

Those attending from Antioch were President Bartlett, Trustees W. I. Scott, Frank Powles and Arthur Rosenfeld, Clerk Roy L. Murrie, and Street Commissioner William Thiemann.

Attend League Meeting

They went to Springfield Monday to attend a meeting of the Illinois State Municipal league and arrived home today.

The league voted to seek from the 1947 General Assembly legislation for pro-rating a portion of the two per cent sales tax. This was in line with a resolution drawn up by the Lake County Municipal council attended by the local officials.

The resolution said there existed "an imperative need for financial aid" to villages and cities in Illinois through revenue from the state.

The league's special committee on municipal revenue headed by Mayor H. J. Hakala of DeKalb, told the convention there was "very little likelihood" of obtaining legislative action on the sales tax proposal.

## Sequoia Camera Club Will Be Organized Among Antioch Fans

Camera fans in the Antioch area are going to have opportunity of sharing their experience in a club soon to be organized under the name of Sequoia Camera club.

George E. Borovicka of the Reeves drug store and William Banedit believing that with the large number of persons owning cameras of various kinds and makes and with the large amount of subject matter in this area to shoot at, more interest and enthusiasm should be displayed. They are starting the club.

Camera fans, regardless of whether they own a box camera or a movie camera are invited to leave their names and addresses at Reeves Walgreen agency so that the club may be formed. Plans are being made to have the first meeting on Thursday, Oct. 17, when the club will be organized and the time of meetings established.

"It isn't so much the style or cost of the camera but the knowledge of how to operate the camera you have that counts," said Borovicka. The club is for young and old, men and women.

### Simple Precautions

Simple precautions against the possibility of fire save lives and property from destruction—precautions which are so simple they may seem actually unnecessary. But The National Board of Fire Underwriters emphasizes the importance of such measures in its untiring effort to cut down fire loss. It recognizes that the most effective force in fighting fire is a sincere desire on the part of the public to cooperate in eliminating every possible fire hazard.

Some of the simple precautions that depend on each individual are: Proper insulation around stoves; the use of fuses instead of pennies in the fuse box; closing of doors and windows to shut off possible drafts when leaving a dwelling; safeguarding fires left in houses against spreading to curtains, furniture and inflammable fixtures; destroying refuse which is a potential producer of instantaneous combustion; placing electric irons on something metallic instead of on the cloth ironing board. These and countless other safety measures depend upon individual action.

Such safeguards are indispensable if we are to reduce the tremendous annual fire loss suffered by this country. The great proportion of fires results from failure to adhere to the simplest precautions. Thousands of lives are lost and millions of dollars worth of property is destroyed every year because of individual negligence or laziness in cooperating to prevent fire. Simple precautions may save any one of us from being the victim of fire. Why shirk a duty that takes so little time and may prevent untold loss and suffering?

### Three-Point Oil Policy

In a recent address, Secretary of the Interior Krug outlined a three-point oil policy for the United States, involving national oil security, continued availability of an adequate, reasonably priced supply of petroleum products, and the maintenance of a healthy, vigorous American petroleum industry.

That is practically what we have now. The Ameri-

can oil industry, through exploration and research, is constantly expanding known oil reserves to serve the country in generations to come. The cost of oil products to consumers has risen very little since before the war—despite substantial increases in the cost of operating the industry. And no industry has shown a more vigorous spirit. It met the unprecedented, unpredictable demands of the war with 100 per cent success.

There need be no fear of an "oil problem" in this country so long as we permit the industry, under suitable and reasonable regulations, to continue to produce, to develop and to conserve our oil resources. It has the "know how" which has given it world leadership. And it has the drive and the incentive.

### The Transportation Shortage

The transportation shortage—which Railway Age describes as the most serious in American history—is the result of a number of factors.

First, war controls over the handling of transportation are not now in effect. Consequently, boxcars no longer need to be completely filled by shippers, and more cars are required for a given amount of freight. The railroads work seven days a week, but many factories work only five days—and cars must stand idle over the long weekend.

Second, the railroads, like all other industries, are finding it difficult to fill orders for new equipment. Cars and locomotives, like automobiles and refrigerators, aren't being produced in adequate quantities.

Third, and most important by far in the long run, is the railroad's financial problem. The industry's cost of operation has risen to such an extent that it is necessary to dip into reserves to pay running expenses—and those are the reserves which were created to buy new equipment. The lines have asked the Interstate Commerce Commission for rate increases, and have substantiated that request with a vast amount of factual testimony as to the need. Yet, as Railway Age says, "The ICC is delaying month after month the advances in freight rates without which the railways cannot make the net earnings essential to enabling them to make the required investment."

The only solution to the transportation shortage is a huge railroad expansion program. The railroads are solidly behind that program. But they can't undertake it until means are provided for getting the money. Their only source of revenue is rates. It's up to the ICC.

Good Reasons  
for insisting on  
ADEQUATE WIRING

You'll probably want every one of these appliances in the new home you are building... but, unless you plan now for adequate wiring, you won't be able to enjoy them!

The best time to get adequate wiring is during the period of construction. That's why it is important to check with your contractor to be sure the wiring plans for your new home are adequate before you start to build. When you get adequate wiring you avoid unsightly extension cords, dimming lights, and "loafing" appliances.

With adequate wiring you'll have circuits enough to supply abundant electric-

ity for all your present appliances as well as for those soon coming your way. And, you'll have plenty of convenience outlets where you can "plug them in."

Be sure to plan now to have adequate wiring in your new home. Our Home Building representative will be glad to help you plan so you will have adequate wiring in your home, or you can consult your electric contractor.

### Insure to Present Value

THE HOUSE you built not so many years back would cost you 30 to 50 per cent. more to build today. Its value has gone up. It is insured to cover only its original value you may be dangerously underinsured. Better talk this over with this Hartford Agency.

## THE PROPOSED AMENDMENT TO SECTION 2, ARTICLE XIV, OF THE CONSTITUTION OF THE STATE OF ILLINOIS.

Explanation of Proposed Amendment.

The proposed amendment of Section 2 of Article XIV of the constitution of Illinois changes the manner in which amendments to our State constitution may be made in three respects:

1. The number of articles of the constitution to which the General Assembly may propose amendments in the same biennial session is increased from one to not more than three;

2. The vote of the electors required for the adoption of a proposed constitutional amendment is changed from a majority of all votes cast in the general election to two-thirds of the votes cast upon the proposition; and

3. Votes upon a proposed constitutional amendment must be cast directly upon the proposition. Party circle votes may not be counted.

In order for this proposed amendment to be adopted it must receive a majority of all the votes cast in the general election. If it fails to receive a majority of all votes cast in the general election, it will not be adopted even though it receives a large majority of the votes cast upon the proposition.

## Ostrich Feathers

The ostrich is the only bird which is reared exclusively for the sake of its feathers. Ostrich farming is one of the established industries of South Africa and is also practiced in North Africa, Argentina, Arizona and California.

## Faster-Heating Pan

A pan with a flat bottom and a dull finish heats faster; dull finishes absorb heat, while shiny ones reflect it. A flat, reinforced edge around the rim strengthens it and makes for easier cleaning.

## Fact and Scripture

"But if we walk in the light, as he is in the light, we have fellowship one with another, and the blood of Jesus Christ his Son cleanseth us from all sin."

If we say we have no sin, we deceive ourselves, and the truth is not in us. If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness."

# SOCIETY EVENTS

## Rev. Fr. E. Wm. Strauser Honored at Reception on Wed. at St. Ignatius'

More than 125 members and friends of St. Ignatius' church gathered at the Guild hall at the church on Wednesday evening to welcome the Rev. Fr. E. Wm. Strauser, new pastor of the church.

Rev. Strauser was welcomed to the reception and the church by Wm. Brook, and he replied to the welcome and introduced his wife and small daughter.

A pot luck dinner was enjoyed by the assemblage, after which movies were shown by Anthony Novac of the Illinois conservation department.

Rev. Strauser comes here as being his first charge since being discharged from the U. S. army. He was formerly in charge at Grace Episcopal church, Evanston, before enlisting in the armed service. He held the rank of chaplain while in the army, and served for 18 months overseas in the Philippines and on Okinawa. He will also have charge of the Grayslake Episcopal church and will conduct services on alternate Sundays in the two towns. He will be assisted by Mr. Stanley Wilcox, a student at Seabury Western Seminary at Evanston, and Mr. Wilcox will conduct services here when Rev. Strauser is in Grayslake.

The Strausers will make their home at the parish house adjacent to St. Ignatius' church on Main street.

## REBEKAH ENTERTAIN DISTRICT OFFICERS

Forty guests and members were present Wednesday evening when the Antioch Rebekah lodge entertained district officers from several different lodges of Lake County. An interesting program was presented. The Alma Rebekah club held a meeting Monday evening in the hall. Thirty were present. Cards were played during the evening and a luncheon was served later in the evening.

## WORLD COMMUNION

Next Sunday, October 6, 1946, is World Communion Sunday. On that day all Protestantism will be partaking of the Holy Communion in memory of the life and death of Jesus Christ. As in other years, The Methodist church of Antioch will dedicate the morning worship hour to that service, in which we invite all regardless of race or creed, to unite. It is the Christian duty as well as great privilege, of all professed followers of Christ to avail themselves of this opportunity for their own spiritual enrichment and for their influence upon others. We cannot avoid the fact that, whether we like it or not, some one, perhaps many, are following our example. The young people and children are especially invited.

### Drive to Register Veterans is Started By American Legion

An intensive drive urging registration of all voters in Antioch and Lake County, with special attention to veterans of World War II has been started by American Legion Post No. 748. The campaign is part of the American Legion, Department of Illinois good citizenship program and is being carried on all over the state.

In announcing the drive Post Commander Everett Hatfield emphasized that as in all Legion activities the campaign is completely non-political and that its sole purpose is to impress upon all citizens their obligation to keep our elective form of government representative of the entire electorate.

"Only a short time is left now until the final registration day, Oct. 8," Commander Hatfield said, "and there are still many voters here who haven't registered, some of them veterans of World War II. Some of these veterans were under voting age when they went into service and probably are not informed about what they have to do in order to vote this fall. Others may be indifferent, but it is difficult to understand why they should fight to preserve their country and then neglect to go to the polls to keep our form of government alive."

### Uncle Sam Says

United States Savings Bonds are patriotic bonds because your country is still fighting enemy forces which can do to you what the Nazis and Japs were unable to accomplish. This enemy is inflation—run-away prices which can wreck you and your country. Every bond you buy today still serves your country because your continued investment in bonds keeps your dollars in a safe place and out of competition for the still scarce consumer goods.

## WILMOT

(Continued from Page 3)

Mr. and Mrs. Gus Neumann, Mrs. Mathew Thom and son were dinner guests Sunday of Mr. and Mrs. Edwin Parke at Barrington.

Rev. Rudolf Otto was guest speaker at the Mission festival at the first Lutheran church in Lake Geneva on Sunday. Rev. and Mrs. Otto and family were guests of Rev. and Mrs. Henry Diehl.

The Lutheran Ladies aid will meet Thursday, Oct. 3, at 2:00 o'clock at the church hall. Sunday worship will be at 10:00 a. m. and Sunday school at 9:10 a. m. The Young People's Society will meet at the church hall Monday evening, Oct. 7 at 8:00 p. m.

Mr. and Mrs. Clarence D. McCallum and Mr. and Mrs. Daniel McCallum from Lily Lake have rented the Shanley cottage south of the village on the river for the coming six months. They took possession over the weekend.

The McGuire family, from Chicago, were at their Wilmot home over the weekend.

Mr. and Mrs. Don Herrick and son, Oak Park, spent Sunday with Mr. and Mrs. Harry McDougall.

Mr. and Mrs. Melvin Lake returned Monday from a week auto tour through northern Wisconsin.

Carlita Richter, Silver Lake, has accepted a position with the New Era Telephone company at Wilmot.

Lt. Donald Tyler was sent to Japan on August 1 and after some time at Yokohama was transferred to the Tachikawa air base. From there he was transferred to Guam and was there for the typhoon of Sept. 21. With twelve hours warning before it struck the troops were sent into storm proof buildings and no one

was injured. The wind velocity was 114 miles per hour and with the terrific down-pour Lt. Tyler said the hangars and many trees and buildings were destroyed. Lt. Tyler is a special service officer with his own detachment of three officers and twenty enlisted men.

## What's your Insurance Question?

## Insurance Question:

Why do today's driving conditions make adequate Automobile Insurance more necessary than ever?

## Answer:

Everybody's taking advantage of peacetime conditions—driving more—in old cars, on recapped tires, over worn roads. It all adds up to greater danger of accidents and costly damage suits. For safety's sake, drive carefully, and carry Hartford Automobile Liability and Property Damage Insurance.

## You'd Better Look Now

## ... BECAUSE

THERE'S A HAND  
IN YOUR POCKET,  
MR. DOAKES!

YOUR GOVERNMENT believes in subsidies—that's a nine-letter word for money given to an industry to keep it going for various reasons. These money-gifts the government hands out come from your pocket, like this:

It recently cost the dairy and retail industry 79c to put a pound of butter in your hands. The OPA ceiling price was 66c per pound. The 13c a pound difference was paid by the government—with tax money that came out of YOUR pocket. That's a subsidy.

What did we pay for butter during the weeks when there was no OPA? Many paid seventy-nine cents a pound, right over the counter, and were no longer paying the 13c subsidy in taxes, nor the interest on that subsidy, nor administrative expenses to OPA. Did you know this?..

At today's prices you know what you are paying, and your money is not being lifted from your pocket and spent behind your back!

Similar subsidies are still being paid in the housing field for the production of building materials, and in other ways.

Did you ever see a poster publishing ceiling prices?

It certainly doesn't tell all you will pay—does it?

Americans are not natural suckers, so let's look at it on the table: OPA ceilings are "fronts" to gain confidence, and the story of subsidies paid out when you weren't looking, is not told.

OPA has the power to hold YOU under its thumb with controls—an "ace" for any political party.

OPA has 572 propaganda men working hard to gain your confidence, and spending millions of dollars to do it. This is your money the government is spending.

(Canada has an outstandingly successful price control system, but the Canadian people pay the highest income tax in this part of the world.)

Your taxes and your living costs must increase to support price control subsidies.

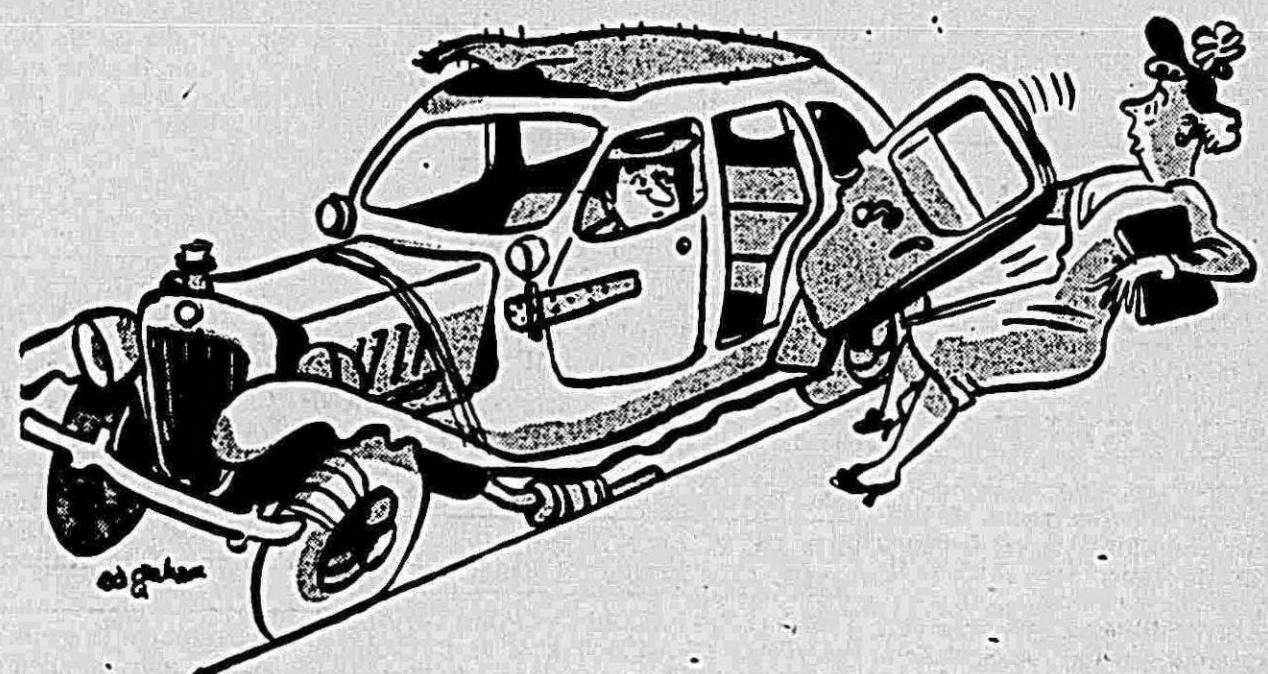

If your government spends enough of your money, Mr. Doakes, will your food, your clothing, and your housing cost you less?

Howdy Folks: There's no place like home, especially if you haven't the money to go out.

Of course you do have to take into consideration the fact that the novelty of married life does wear off.

There was the party who believed in free love. He hadn't supported his wife in three years. Most men keep their wives because it's the supporting thing to do, though.

Of course it isn't always love that enables married couples to get along. Sometimes it's just good common sense.

And it's good common sense to use our dry cleaning service.

The proof of the pudding is in the eating. Why don't you try it?
